

Composition Summer 2020

Leskin Kirill
9892

This summer wasn't as funny as others because of "lockdown". The virus cut out everyone from the outer world and I haven't become an exception. Our company forced us to work from home, but it wasn't as bad as I thought because I didn't have to wake up early and go to the office. Instead of that I woke up 10 minutes before the working day started.

Despite the virus, this summer I had fun and I've done lots of work. I have started working on my own project, which is a game on Android. I've begun practicing blind typing (by the way, I've typed this text without looking on the keyboard). Also, I've done some repair on our balcony with my girlfriend I live with.

Moreover I've went to my dacha several times and there I've done a lot of work on repairing the house. On the dacha, it was a nice time to ride a bicycle about 20km, swim in the lake which was very clear and full of fish we could see from the beach, and other activities.

I've had too few outings this summer and I'm fully destroyed by this fact. But it is not a reason to stop. Always trying to move forward and self-developing makes me happier and still I enjoy every day.
